## Client Services

Americans With Disabilities Act (ADA) Compliance policy development and implementation

Americans With Disabilities Act (ADA) Compliance policy development and implementation is not as easy as it sounds.

The ADA was passed in 1990, but the dream of universal accessibility and inclusion has yet to be realized.

There are many reasons for this across the business, government and nonprofit sectors.

A lack of understanding and worn out attitudes are chief among them.

Then there is the fear of cost with no return on the investment necessary.

The population of people with disabilities in the United States according to the Centers for Disease Control equals 25% (twenty five percent) of the general population and this does not include the friends and family members of the disabled.

With some 80 (eighty) million potential customers and employees available in this largest minority market the ADA and its implementation in your business, government agency or nonprofit should be taken seriously.

Access Ready Strategic Consulting has great experience in this area and can easily assist you in complying with the ADA as required by law in a cost effective and market benefiting positive way.

Our past clients have ranged across the business, Government and nonprofit sectors as our client testimonials reveal.

"Mr. Towne is well known and respected in the disability and general community. He has served in many capacities at National, State and local levels as a member of the National Federation of the Blind for Florida, the National Council on Independent Living, the Florida Council of the Blind, the Florida Independent Living Council and the Florida Rehabilitation Council for the Blind to name a few. Doug led the creation of the Florida Coalition for Disability Rights. He was responsible for efforts leading to accessible voting resulting in passage of legislation at both the State and Federal levels."

- Joseph J DiDomenico, Executive Director, Disability Achievement Center
